PASSPORT TO
THE WORLD -
LEARN A
LANGUAGE!

Our School

NSW School of Languages is a distance education language specialist school. We are part of a network of Department of Education schools that provide education to students by distance education.

Students in NSW secondary and central schools may enrol to study a language course not available to them at their home school.

Subject to satisfying the guidelines, enrolment is available for Years 9 - 12 students from NSW public schools and other educational providers.

Learning is supported through a diverse program of online courses, speaking lessons, video conferencing and email.

Each term study days are held at NSW School of Languages where students enjoy the opportunity to meet and learn with other students and staff.

Stage 5

Our experienced and passionate teachers introduce learners of Years 9 and 10 to the wonders and charms of one of the world's oldest languages.

Like Greek itself, we change with the times, continually improving our curriculum and approach, augmented with a rich digital platform, audio and video resources, animated games and more!

During our face-to-face lessons each term we practise pronunciation, speaking, listening, reading, writing, grammar and vocabulary using creative and interactive methodology through a range of vibrant cultural activities including cooking, music or even dancing.

Greek has been classified as one of the twelve priority languages of wider use in Australia and is taught in all states and territories in a variety of systems and levels of education. Be part of this exciting exploration!

Stage 6

Our teachers have experience in developing, marking and assessing external examinations, such as the HSC, and can pass on invaluable experience, knowledge and skills to their students to best prepare them for their HSC studies and beyond.

Our Extension course incorporates eLearning pedagogy to engage 21st century language learners, with collaborative and authentic tasks that challenge and stimulate our students.

While some of us learn a language because of our background and desire to better communicate with relatives, maybe we should learn a language so we can embark on a journey of discovery.

Why not start your Odyssey now?
